FOR THE TRADE ONLY.

Wholesale Price List.

BURPEE'S

Garden, Farm, and

Flower SEEDS.

W. ATLEE BURPEE & Co.,

Seed Growers and Merchants,

PHILADELPHIA, PA.,

U. S. A.

A Single Plant, exactly engraved from a Photograph of

Dwarf Sweet Pea,—Burpee's PINK Cupid.

See pages 30, 31 and 32.

Discounts TO THE TRADE From our Retail Prices.

In our retail Catalogue—BURPEE'S FARM ANNUAL FOR 1898—are many varieties of seed, for which frequently other Seedsmen receive retail orders. With the exception of our exclusive Novelties for 1898, which are not offered to the trade, also the advance set of Eckford's New Sweet Peas for 1898, described on page 85 of BURPEE'S FARM ANNUAL FOR 1898, and upon which we can allow a discount of only 33½ per cent., we will supply

All Seeds in Packets at 50 Per Cent. Discount.

500 Packets or More at 60 Per Cent. Discount.

On small quantities from our retail Catalogue, which cannot be invoiced at the low pound or bushel prices quoted herein, we would state that such orders are charged at the following rates of discount from our retail prices :

Seeds by the Ounce,	40	per cent. discount.
Seeds by the Quart or Pint,	33½	“ “
Seeds in Collections,	40	“ “
Potatoes by the Pound,	40	“ “
Bulbs in Collections,	20	“ “
Roses and other Plants,	20	“ “
Books on Garden Topics,	30	“ “

At the above liberal rates of discount, the goods travel at expense of purchaser, and on seeds, etc., sent by mail, the cost of postage will be added to the invoice. The Books, however, will be sent by mail, when so desired, *without extra charge for postage.*

Address letters and telegrams plainly :

PHILADELPHIA, PA.

JANUARY 5, 1898.

To the Trade :

You can buy seeds at almost any price you choose to pay, **BUT**—they are **not BURPEE'S SEEDS!**

We seek the trade of Dealers who appreciate the value of **First-class Seeds**, and supply at wholesale identically the same stocks as in our mail business, which is known to be **the largest in the world.**

Our prices are fair—as low as you can buy good seeds for—higher than you should pay for poor.

It is not their cost, number, how they are put up, or how advertised, that makes good seeds—it's what the seeds themselves are.

We employ no travellers, as explained on the following page, but will be pleased to make **Special Quotations**, wherever possible, at any time **by mail.**

Kindly read pages 3 to 6 of **THE FARM ANNUAL FOR 1898**,—we think them worth a few moments of your time,—they tell how **we test all seeds.**

Our seed growing and testing at **FORDHOOK FARM** are open to your investigation at all times. You can see how **we know Seeds.**

Soliciting your esteemed orders, which will have careful attention,

We remain yours truly,

Lock Box 1626.

PHILADELPHIA, PA.

A New Plan for 1898.

BURPEE'S SEEDS

are sold only in sealed packages.

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest.

It has been brought to our notice that some merchants will buy a bill of seeds from us, obtain copies of our catalogues and show cards, and then purchase a portion of their supplies from other seedsmen, who, growing "*cheap seeds*," can sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention the past year that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale, and announce in *THE FARM ANNUAL* FOR 1898 that **BURPEE'S SEEDS** could be obtained only direct from Philadelphia. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years, and in whom we could place confidence. Therefore we decided upon the plan announced below:

Hereafter we will sell Burpee's
Seeds **ONLY** in sealed packages.

Packets and ounces, in the *Spangler Water-tight Bags*, are sealed as heretofore, and bear, plainly printed, either **our firm Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, done up in paper bags or cartons, will have pasted across the top a **green label**, worded as follows:

BURPEE'S SEEDS THAT GROW
For 1898.

Genuine Only if this Seal is Unbroken.

Seeds in Bulk,—that is, Peas, Beans, etc., by the peck or bushel, and large quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal.** This plan will be a protection to honest merchants from competition with other seeds claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

Our Only Salesman is our annual Catalogue. We employ no travelers, but will quote prices by mail at any time.

LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION CAN BUY IN BULK FROM US, AS HERETOFORE.

As stated above, every sack leaving our warehouse will be sealed, but, of course, the contents, being in bulk, can be handled as desired,—except that they must not be sold as **BURPEE'S SEEDS**, except in original packages.

TERMS OF SALE.

PHILADELPHIA, January 5, 1898.

All bills purchased after this date will be charged at the prices quoted herein,—unless *special offers* are made by mail and *referred to* in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

Sealed Packages.—We make no charge for sealing **pounds, pecks, or bushels**, but, at the low bulk prices quoted herein, we charge for putting up in smaller sealed packages, as follows:

In Ounces.—One cent per ounce.

In Quarter-Pounds, Pints, and Quarts.—Two cents for each package.

In Two-Quarts and Four-Quarts.—A charge of three cents per package.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this Catalogue are due June 1st, without regard to date of purchase. *All accounts are subject to sight draft on June 10th if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

 Bills purchased *on special quotations*, made by letter, are due three months from date, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

 **Grass and Clover Seeds, Onion Sets, and Seed Potatoes** in quantity are invariably **net Cash**.

 Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Terms for Cash.—We will allow a discount of **Five per Cent.** on orders accompanied by a cash remittance, and also on all bills (at Catalogue prices) paid within ten days from date of invoice.

Shipping Instructions should be sent with each order, and will be followed carefully. Otherwise we will use our best judgment as to route.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except in cases where important changes in the market compel us to advance or reduce our prices, when we will be governed by the market. **10 lbs. and over will be supplied at the rates per 100 lbs.;** $\frac{1}{2}$ lb and $\frac{1}{4}$ bush. at the pound and bushel rates; but *smaller quantities will be subject to a higher charge.*

Seeds by Mail.—When desired, small packages will be forwarded by mail at 8 cts. per pound, 15 cts. per quart, extra.

NO CHARGE for Boxes, Barrels, Packing, or Cartage. Bags are *Charged at Cost.* After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases. **Insurance** effected only when so directed.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Telegraphic Cipher (or Cable Code)

FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need not be repeated before each variety, but may be placed only before the first. For example :—

Freight Anam Brame, Bisk, Blest would mean :—Ship immediately by fast freight four bushels each BURPEE'S BUSH LIMA, BURPEE'S SADDLE BACK WAX AND GOLDEN WAX BEANS.

Express Amoy Coach, Clutch, Clown would mean :—Send immediately by express three pounds each GOLDEN SELF-BLANCHING, WHITE PLUME and DWARF GOLDEN HEART CELERY.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

IMPORTANT.—This telegraphic cipher must be used **ONLY** on orders by telegraph or cable and never in written orders sent by mail.

Telegrams should be addressed,

W. ATLEE BURPEE & CO., PHILADELPHIA.

Our CABLE ADDRESS is BURPEE, Philadelphia.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

 **A Telegraphic Cipher (or Cable Code)** is attached to each variety, by which our customers can wire us their orders at very little expense, using also the code for weights and measures as on preceding page. For example:

Freight Luzon Brame would mean: Send immediately, by fast freight, five bushels of BURPEE'S BUSH LIMA BEANS.

Express Arden Canopy would mean: Send immediately, by express, twelve pounds of BURPEE'S ALLHEAD EARLY CABBAGE.

Mail Alem Plash would mean: Send by mail, postpaid, to-day, one pound BURPEE'S RUBY KING PEPPER. If the word **Register** is used instead of *mail*, it would mean "Send by Registered Mail."

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our **CABLE ADDRESS** is: **BURPEE, Philadelphia.**

MAMMOTH RUSSIAN SUNFLOWER.

A FIELD OF BURPEE'S PINK CUPID. Engraved from a Photograph.

Dwarf Sweet Pea,—Burpee's PINK Cupid

This little wonder, like the original Cupid, hails from California, having been discovered by C. C. Morse & Co., to whom we paid *fifteen hundred dollars cash* for the exclusive ownership when there were only 1060 seeds in existence. It is not a sport from the original White Cupid, but an actual departure from its parent, the tall Blanche Ferry. In habit and manner of growth it is strictly a Cupid, spreading from the root, from a foot to eighteen inches around, growing from six to eight inches high, and shooting up stems about six inches long, which bear, in full bloom at once, from *three to four handsome blossoms*, all borne close to the end of the stem.

The flower itself is pretty enough, but its attractiveness is doubled by its association with CUPID,—the first colored Cupid to follow the famous dwarf white.

The standard of the flower is wide, not infrequently measuring an inch and a half, but not over an inch high, being developed laterally. It usually curves over a trifle from the top, partly concave, which gives the standard a distinct shell-shaped appearance. The standard is a bright rose-pink, while the wings are pure white or light pink. The wings are very large and finely formed; when pressed back against the standard they extend fully a quarter of an inch beyond it.

The substance of the blossom is peculiarly heavy and it will appear fresh and vigorous in a glass of water long after its long-stemmed parent has withered and died. The plant itself is vigorous and hardy, and those who had poor or indifferent success with White Cupid will find **Burpee's PINK Cupid easy to grow anywhere.** The seed, which is *black*, is of wonderfully strong germination, and the plant an early bloomer, coming into bloom simultaneously with White Cupid.

Though flowering early, it continues in bloom very late, bearing a profusion of blossoms so thickly as to completely hide the plant itself. It will be without a rival as a bedding and border annual, for its color and fragrance make it a rare novelty.

677 In our field crops the past season, both in California and New York, a large piece of them looks as if the ground were literally strewn with bright pink rose-buds. No novelty of recent introduction has such brightness, beauty, and grace combined as **Burpee's PINK Cupid.** It is also delightfully fragrant, and will be admired by every one who sees it.

Our prices for 1898 are :

In regular-size packets (each containing twenty-four seeds) :

Per pkt. 25 cts. ; 5 pkts. for \$1.00 ; per dozen pkts. \$2.00.

Per 100 pkts. \$12.50.

A lower rate will be quoted **by the thousand packets.**

In half-size packets (each containing twelve seeds) :

Per pkt. 15 cts. ; 2 pkts. for 25 cts. ; or 10 pkts. for \$1.00.

Per 100 pkts. \$7.50.

A lower rate will be quoted **by the thousand packets.**

Directions for culture in English, French, and German printed upon each packet.

EXPERT TESTIMONY.

A representative of the *Florists' Exchange* made a trip into Jefferson County, N. Y., for the express purpose of putting to an end all doubt, as to whether statements and expressions not distinctly favorable to the Cupid Sweet Peas were true.

That these dwarf sweet peas flourished in full splendor in the climate of California has not once been disputed, but at the same time the claim has been urged that this novelty would not develop in the East, as it did in the West, its home.

The *Florists' Exchange* has been desirous of obtaining positive evidence in this direction, and in presenting this present note and accompanying illustration, congratulates MESSRS. W. ATLEE BURPEE & Co. upon what must be regarded as a vindication of the statements made by them in introducing this dwarf race.

The *bona fides* of gentlemen who have spoken of low germinating power, failure of the plants to flower, etc., is not contested,—such, doubtless, was their experience. The evidence they supply does not prove the arguments, however, but if taken with facts, such as are here adduced, goes to show, they did not fully provide for the cultural demands of the plant.

Moreover, to the *Florists' Exchange*, as representing the American seed and florist trade, certain remarks of foreign writers as to "pompous recommendations" being "strictly American" seem to demand an answer, and we add to our own expressions from observation of the grand bed of pink Cupid the evidence of the photographic camera.

The picture herewith reproduced represents a bed 50 x 40 feet in a spot a dozen or so miles inland from the shores of Lake Ontario where the soil is shallow and of a hard cold clay loam nature. The plants on this place are being grown for seed, and at the time of our visit (September 3d) not only was the area a sheet of color, but there were evidences of what had been in the great profusion of seed pods which were being carried, and furthermore the end was not yet, for the buds still to show their blooms promised to make the sea of rosy-pink just as fine till frost should come.

As to the effect of pink Cupid used as a bedder, we confess, the sight astonished us; it was gorgeous in the extreme, especially when the sun shone on it and enhanced the brilliancy of the *Blanche Ferry* flowers, for such indeed they are, that popular variety being the source whence the dwarf has sprung. The continuity of bloom as seen on the bed in question, is a point for consideration; it did not run itself out with one burst of flower. The seed was sown two and one-half inches deep in hills two feet six inches apart, and the whole then treated as a hoed crop. The soil had received a surface dressing of lime, but this application can hardly have had much influence on the plants. We counted 121 stalks in blossom on one plant, and an average of three flowers to the stem. The height of the plant was six to eight inches, and the spread generally two feet, while occasionally one would run to thirty inches and even more, while the individual blooms measured across the standard one and one-quarter inches. —From THE FLORISTS' EXCHANGE, New York, September 18, 1897.

Burpee's PINK Cupid bears generally three and sometimes four flowers to a stem. The illustration above was accurately engraved from a photograph, *exactly natural size*. The flowers are identical with the tall-growing *Blanche Ferry* and are *always fully equal in size*.

Report from MR. ECKFORD.

WEM, SHROPSHIRE, ENGLAND,
September 13, 1897.

MESSRS. W. ATLEE BURPEE & Co.,
Philadelphia, Pa.

Gentlemen :—I am pleased to tell you that the "PINK CUPID" Sweet Pea you were good enough to send me for trial has been a great success. White Cupid has done much better than last year, but still not up to the Pink variety, which holds its bloom better, and consequently gives a much better display. I don't think too much can be said in favour of Pink Cupid. At present it occupies the place of honour in dwarf Sweet Peas.

I am, gentlemen,

Yours faithfully,
HENRY ECKFORD.

AMERICAN GARDENING.

A. T. DE LA MARE PRINTING AND PUBLISHING CO.,
LTD., PROPRIETORS.

NEW YORK, September 9, 1897.

MESSRS. W. ATLEE BURPEE & Co.,
Philadelphia, Pa.

Gentlemen :—I have just returned from a trip to Jefferson County, New York, where one of the most beautiful sights to me was a bed of PINK CUPID. It was a mass of blossoms exhalng a delicious fragrance into the air; and that its past had been equally grand was evidenced by the seed pods, while the promise for the rest of the season lay in the multitude of buds yet to expand.

Truly as a flowering bedder Pink Cupid is a success.

Yours faithfully,
LEONARD BARRON,
Editor A. G.

DAVID K. HAMPTON, Warkworth, Ontario, Canada, Sept. 20, 1897, writes :—With regard to the PINK CUPID, I received ten seeds; and they, every one, germinated in the open ground without any particular attention. The plant certainly equals, perhaps excels, the White Cupid in vigor of growth and profuseness of bloom while retaining the same dwarf character. The ten plants were entirely uniform in color,—light pink and dark red.

Reports on Burpee's PINK Cupid.

Geo. C. BUTZ, M. S., Horticulturist of the Pennsylvania State College Agricultural Experiment Station, State College, Centre Co., Pa., Sept. 9, 1897, writes:—From the ten seeds of BURPEE'S PINK CUPID SWEET PEA we have ten good plants, which began flowering when seven inches high, and now, full grown, are but fourteen inches long. As they rest upon the ground they make a mass of foliage and flowers about ten inches high. The flowers are above medium size, with broad, erect, slightly convex standard; the wings are large and arch over the keel after the manner of the White Cupid. The color of the standard is a light shade of pink, finely striped with carmine-pink; the wings are rosy-purple blotched with white. Burpee's Pink Cupid is an excellent companion for the White Cupid, and will always have a place to fill because of its dwarf habit.

JOHN LEWIS CHILDS, Seedsman, Floral Park, N. Y., September 4, 1897, writes:—From the ten seeds of BURPEE'S PINK CUPID SWEET PEA, which you kindly sent us for trial, we raised several plants which bloomed freely. The style of growth and size of flower is exactly like the White Cupid, but the color is a beautiful pink, after the style of Painted Lady. It is certainly a most desirable acquisition.

L. W. GOODELL, Seedsman and Florist, Pansy Park, Dwight, Mass., Sept. 7, 1897, writes:—The packet of PINK CUPID SWEET PEA sent me for trial contained eleven seeds. They were planted early in March on a greenhouse bench along with other seeds. Every seed grew; in fact, there were twelve plants, an examination showing that one of the seeds had produced two sprouts, evidently having had two embryos. After they had grown an inch or two they were transplanted to four-inch pots, and finally shifted to the flowering-pots, five- and six-inch. The plants were rather slender at first, but soon made strong lateral growths and fine plants. They have flowered freely, the first flowers opening early in June, and are still in bloom at this date, although they do not flower so freely now as earlier in the season. It is, in my opinion, a valuable acquisition. Its beautiful color, just like Blanche Ferry, and the fact that the seeds germinate as freely under ordinary conditions as any of the common varieties, will, no doubt, make it the most popular novelty of 1898.

JOHNSON & STOKES, Seedsmen, Philadelphia, Sept. 4, 1897, write:—Yours of September 24, in regard to PINK CUPID SWEET PEA, received. The seeds in the packet sent us for trial germinated well and gave us quite a profusion of bloom, and we were surprised at the size of the individual flower, which was quite equal to Blanche Ferry.

WREBER & DON, Seed Merchants, 114 Chambers Street, New York, Sept. 7, 1897, write:—Replying to yours of the 2d inst., regarding PINK CUPID SWEET PEAS sent us for trial last year, we would say that we tested same, and the results were entirely satisfactory. The dwarf form being very useful in pot culture, and the colors of the flowers perfect. We think it a good "Novelty." Every seed grew and formed a plant.

F. B. GAULT, President of the University of Idaho, Moscow, Idaho, Sept. 14, 1897, writes:—Replying to your favor of Sept. 7, would state that we have found BURPEE'S PINK CUPID very satisfactory so far as prolific blooming and beauty of flower is concerned. It is a very attractive flower.

GEORGE VESTAL, Professor of Agriculture and Horticulture, New Mexico College of Agriculture and Agricultural Experiment Station, Mesilla Park, N. M., Sept. 14, 1897, writes:—The plants from BURPEE'S PINK CUPID seed sent to this station for trial last winter did finely. The plants are very compact and floriferous. The color quite distinct and pleasing. As compared with White Cupid they grew and bloomed freer.

H. BENTON, Secretary Canebrake Agricultural Experiment Station, Uniontown, Ala., Sept. 14, 1897, writes:—The seeds of BURPEE'S PINK CUPID were planted on the same plot with New Sweet Pea from California, Aurora, Golden Gate, Creole, Cupid, American Seedling, Brilliant, Maid of Honor, and were on an adjoining plot to Eckford's Mixture. PINK CUPID was as luxuriant grower and as profuse bloomer as any of them. Indeed, it is quite a profuse bloomer and is a most beautiful shade of pink. Pardon the personality,—but my Sweet Peas did excellent this year, and many ladies commented on their beauty and asked from whom I got the seed. Answer—BURPEE.

MESSRS. BIDDLES & CO., Loughborough, England, August 30, 1897, write:—We like the Sweet Pea very much and think it will prove a good acquisition.

MESSRS. HURST & SON, 152, Houndsditch, London, England, Sept. 13, 1897, write:—When sending you copies of the reports from our customers re PINK CUPID SWEET PEA, we by an oversight omitted to include that from Mr. Sherwood. We now have pleasure in saying he considers this variety a great acquisition and a fitting companion to the white variety. It is very floriferous, excellent in color and well fixed in habit. For pots or ribbon bordering it will be found all that is desired.

M. A. SCOVELL, Director, Agricultural Experiment Station of the State College of Kentucky, Lexington, Ky., Sept. 14, 1897, writes:—We had great success with your Burpee's Pink Cupid this year.

HENRY E. GLAZIER, Horticulturist, of the Oklahoma Agricultural College and Experiment Station, Still Water, Okla., Sept. 13, 1897, writes:—Replying to your favor of September 2, 1897, will say we planted BURPEE'S PINK CUPID with 25 other choice varieties. Our Sweet Peas were the admiration of all, especially Burpee's Pink Cupid. I have no hesitancy in saying that the Burpee's Pink Cupid should be crowned queen.

ADOLPH JAENICKE, Florist, Landscape Gardener, and Seed Grower, Hagerstown, Md., Sept. 4, 1897, writes:—Your PINK CUPID is really a great, great improvement on the White Cupid, not in growth, for they have both the same compact habit; nor in abundance of flowers, for in that Pink Cupid is the worthy brother of the White; but the newborn pink imp is decidedly stronger than the White. In the Eastern parts of the United States White Cupid got somewhat scorched in the dry and hot month of July, and buds failed to open; this is entirely different in the Pink. Your ten seeds you were kind enough to send me I sowed out, and had of them nine plants; by the middle of June they were in full bloom, and were very much admired.

Sweet Pea Cupid.

A few days ago, when visiting Mrs. Price's garden at Pen-Moel, near Chepstow, I was surprised to have some excellent clumps of this variety pointed out to me by Mr. Simpson, the gardener. He had planted the clumps in various positions, and each of them was a mass of blossoms. Some of the clumps were also podding freely. —From THE GARDENERS' CHRONICLE, London, England, July 17, 1897.

MESSRS. FISHER, SON & SIBRAY, Sheffield, England, August 20, 1897, write:—Very great improvement on Cupid in size of flower, and a profuse bloomer.

MESSRS. PETER LAWSON & SON, LIMITED, Edinburgh, Scotland, August 31, 1897, write:—In reply to yours of the 20th, we tested the PINK CUPID SWEET PEA, and found it a pleasing and attractive Novelty, for which we expect there will be a good demand.

MESSRS. W. CLIBRAN & SON, Manchester, England, August 21, 1897, write:—In reply to yours of the 20th of August, no doubt the NEW SWEET PEA PINK CUPID will be an acquisition. It is a pleasing color, and the flowers do not seem to drop the same as the White variety.

MESSRS. FIDLER & SONS, Reading, England, August 21, 1897, write:—We are duly in receipt of your kind inquiry. We have made a trial of the new PINK CUPID SWEET PEA, and have found it do exceeding well. We consider it a novelty of splendid merit, and must prove a great acquisition to the Sweet Pea class.

MESSRS. E. P. DIXON & SONS, Hull, England, August 21, 1897, write:—The Pink Cupid Sweet Pea has done very well with us, growing about seven inches high, and producing very handsome pink flowers; it blooms freely and will be very suitable for pot culture.

MESSRS. DOBBIE & CO., Orpington, Kent, England, August 23, 1897, write:—We duly received the packet of Sweet Pea "PINK CUPID"; nine of the ten seeds grew and produced plants which have bloomed more freely we think than Cupid. It has really done very well with us. Cupid does very well with us as in any place we have seen. The color of Pink Cupid is good, and it will prove a valuable companion to the White one.

The Sweet Pea Crop.

Sweet Peas are also improving daily, and if the gloomy anticipations of the growers on your side are verified by results our growers may be disposed to take up their culture once more. The Pink Cupid is now in bloom and fully justified our expectations, although the color is different to what we had supposed it would be. It is a Blanche Ferry with the Cupid habit reproduced in every particular, and unless America has something of a more startling nature in store for us it will probably be the novelty for next season. —EUROPEAN SEEDS IN THE FLORISTS' EXCHANGE, New York, July 3, 1897.

List of SWEET PEAS.

No other seedsmen in the world have devoted so much attention to SWEET PEAS. Our growing crops are rogued carefully and each variety is bred to the very highest standard.

By hundreds of thorough trials at FORDHOOK FARM, made every year, we know SWEET PEAS and the relative merits of all the different novelties as introduced annually. Keeping **Purity** and **High Quality**, rather than low prices, our first aim, we are recognized as

Headquarters for Sweet Peas in America.

Our Unequaled Collection now embraces one hundred and twenty-six varieties.

OUNCES of Sweet Peas are **one-tenth** pound prices, **except** that no variety will be supplied at less than **three cents per ounce**. Varieties priced at 30 cts. or less per pound are charged at **8 cts. per $\frac{1}{4}$ pound**. Varieties priced at 35 cts. per pound are charged at 10 cts. per $\frac{1}{4}$ pound; those at 45 and 50 cts. per pound are charged at 15 cts. per $\frac{1}{4}$ pound, while those priced at 75 cts. per pound are charged at 20 cts. per $\frac{1}{4}$ pound.

* Maid of Honor. White, edged violet,	<i>Juno</i> . . .	75
* Mars. Eckford's new bright scarlet; large and well-formed, . . .	<i>Junction</i> . . .	1 00
Mauve Queen. Standard mauve; wings light blue, . . .	<i>June</i> . . .	20
* Meteor. Standard bright orange-salmon; wings pink, veined, . . .	<i>Jurist</i> . . .	60
* Mikado. Cerise ground, veined with white stripes, . . .	<i>Jurator</i> . . .	35
Miss Hunt. Standard pale carmine-salmon; wings soft pink, . . .	<i>Just</i> . . .	25
* Monarch. Deep bronzy-maroon and dark blue,	<i>Justify</i> . . .	35
* Mrs. Eckford. Beautifully shaded primrose-yellow, . . .	<i>Jute</i> . . .	40
Mrs. Gladstone. A lovely soft pink,	<i>Juvenile</i> . . .	30
* Mrs. Jos. Chamberlain. Striped, bright rose on white, . . .	<i>Juzail</i> . . .	45
Mrs. Sankey. Flowers white; seeds black,	<i>Jymold</i> . . .	25
Novelty. Standard bright orange-rose; wings light mauve, . . .	<i>Jyntee</i> . . .	40

	Tel. Cipher.	Per lb.
Oddity. Peculiar pale carmine and bright rose,	<i>Jumper</i> . .	\$0 40
Orange Prince. Standard orange-salmon; wings bright pink,	<i>Jupiter</i> . .	30
Ovid. Rose-pink, margined with deeper rose,	<i>Jugate</i> . .	25
Painted Lady. The old pink and white,	<i>Juglone</i> . .	15
Peach Blossom. Standard salmon-pink; wings soft pink,	<i>Jovian</i> . .	30
* Prima Donna. A most lovely shade of soft pink,	<i>Jossa</i> . .	1 00
Primrose. Pale primrose-yellow,	<i>Jotacism</i> .	30
Princess Beatrice. A popular rosy-pink,	<i>Jonathan</i> .	20
Princess Louise. Standard rosy-pink; wings lilac-blue,	<i>Jetton</i> . .	30
Princess May. Light lavender; flowers small,	<i>Jacquard</i> .	35
Princess Victoria. Standard scarlet; wings rosy-mauve,	<i>Jacquin</i> . .	40
* Princess of Wales. Striped mauve on white ground,	<i>Jassy</i> . .	30
Purple Prince. Standard maroon; wings purple,	<i>Jalapa</i> . .	25
Queen of England. Pure white; notched at top of standard,	<i>Jalgaon</i> . .	20
Queen of the Isles. White stripes on bright crimson-scarlet,	<i>Jalisco</i> . .	25
* Ramona. White, daintily splashed with pale pink,	<i>James</i> . .	40
Red Riding-Hood. Rosy-pink; standard overlaps wings,	<i>Jambusar</i> .	35
Rising Sun. Orange and rose, shaded carmine,	<i>Janina</i> . .	30
* Royal Robe. Standard delicate pink; wings blush-pink,	<i>Jamnotri</i> .	35
Scarlet Striped. One of the oldest varieties,	<i>Jativa</i> . .	20
* Senator. Bright brown and chocolate, striped,	<i>Jauja</i> . .	35
* Splendid Lilac. Light lilac; now an "old style" flower,	<i>Jerome</i> . .	30
* Splendor. Superb bright rose, shaded crimson,	<i>Jerusha</i> . .	35
* Stanley. Rich dark maroon,	<i>Jesse</i> . .	30
The Queen. Mauve and pink; small size,	<i>Jomelli</i> . .	25
* Venus. Lovely salmon-buff, shaded rosy-pink,	<i>Judith</i> . .	35
Vesuvius. Violet, with dull crimson spots,	<i>Julia</i> . .	30
Violet Queen. Standard mauve; wings light violet,	<i>Juneau</i> . .	30
* Waverly. Standard rosy-claret; wings light blue,	<i>Jutay</i> . .	25
White. The old pure white; notched at top of standard,	<i>Juturna</i> .	20

* The varieties marked with an asterisk (*) produce flowers of good substance and largest size—being of the true *grandiflora* type. All these are entirely free from notches on the standard.

MIXTURES OF SWEET PEAS.

Eckford's Gilt-Edged or Surpassing,	<i>Jurollo</i>	50	45 00
Burpee's Best Mixed. Unequaled,	<i>Jukes</i>	1 50	125 00

NEW DOUBLE SWEET PEAS.

We do not consider these so beautiful as the expanded large single flowers.

We have as good a strain as any, but not more than about thirty per cent. of the flowers, as yet, come double from the seed. From the most carefully selected stock seed, saved only from the best plants bearing double flowers, we offer the following varieties:

Apple Blossom,	White,	Lottie Eckford,	Senator,
Butterfly,	Waverly,	Captain of the Blues,	Splendor.
Duke of Clarence,	Boreatton,	Bride of Niagara,	

Each of the above DOUBLE SWEET PEAS, 45 cts. per lb.

Eleven Mixed DOUBLE SWEET PEAS, 40 cts. per lb.

BURPEE'S GENERAL LIST

OF

FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce; of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. The trade packets offered contain from five to ten times as much seed as our retail packets. Where the price is given per 100 packets, the variety is sold only in our usual retail packets.

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK FARM, or by our private growers in America, all are thoroughly tested both for vitality and purity at FORDHOOK FARM. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold. It is generally admitted that we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.

Burpee's New Box of Flower Seeds.

THIS box of **CHOICE FLOWER SEEDS**, put up in a neat and attractive style, with illustration and directions for culture printed on each packet, contains the same fine quality of fresh seed as supplied to our own critical retail trade. Dealers, having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

EACH BOX CONTAINS

Five 5-cent Packets each of

ALYSSUM, SWEET.
ASTER, CHOICE MIXED VARIETIES.
BALSAM, CAMELLIA-FLOWERED, MIXED.
CANDYTUFT, FINE MIXED.
CALLIOPSIS, MIXED COLORS.
CELOSIA, DWARF MIXED COCKSCOMB.
CHRYSANTHEMUM, ANNUAL VARIETIES, OR PAINTED DAISIES.
CONVOLVULUS MAJOR, OR MORNING GLORY.
COSMOS HYBRIDUS, MIXED.
CYPRESS VINE, ALL COLORS MIXED.
DIANTHUS, JAPAN AND CHINA PINKS, MIXED.
GAILLARDIA, NEW DOUBLE, MIXED.
GOURDS, ORNAMENTAL VARIETIES, MIXED.
LARKSPUR, DOUBLE ROCKET, MIXED.
MARIGOLD, AFRICAN DOUBLE, MIXED.
MARVEL-OF-PERU (FOUR-O'CLOCK), ALL COLORS.
MIGNONETTE, SWEET.
NASTURTIUM, DWARF TOM THUMB VARIETIES.
PANSY, ALL COLORS MIXED.
PETUNIA HYBRIDA, MIXED.
PHLOX DRUMMONDII, FINE MIXED.
PORTULACA, SINGLE, MIXED.
POPPY, DOUBLE CARNATION, MIXED.
RICINUS, MIXED, CASTOR OIL BEAN.
SCABIOSA, DWARF DOUBLE, MIXED.
STOCKS, DWARF GERMAN, MIXED.
SWEET PEAS, ALL COLORS MIXED.
TROPÆOLUM, TALL NASTURTIUMS, MIXED.
VERBENA HYBRIDA, ALL COLORS MIXED.
ZINNIA ELEGANS, CHOICE DOUBLE, MIXED.

ALSO Five 10-cent Packets each of

ASTER, SEMPLE'S BRANCHING, MIXED.
BEGONIA VERNON.
CARNATION MARGUERITE.
POPPY GOLDEN GATE.
SALVIA SPLENDENS.

In all, 175 Packets of Flower Seeds.

30 varieties, five packets of each, making a total of 150 packets, at 5 cts., \$7.50
5 varieties, five packets of each, in all 25 packets, at 10 cts., . . . 2.50

Total Retail Value, \$10 00

Wholesale Price to the Trade, \$4.00 for the Box complete.

It can be sent by mail for 15 cts. additional.

Additional Packets of the above varieties, to replenish stocks as they are sold, will be forwarded promptly by mail, in lots of five packets of a variety, at 2 cts. each for the 5-cent packets, and 4 cts. each for the 10-cent packets.

We do not commission Seeds, but offer such facilities and increased profits that dealers will find our plan more satisfactory to themselves and their customers.

W. ATLEE BURPEE & CO., PHILADELPHIA, PA.

SEEDS FOR THE MILLION.

In the United States, among a population of seventy millions, there are, of course, many who seek for "Bargains" in seeds as well as other merchandise. In order to show the difference in **QUALITY** between **BURPEE'S** and the "Cheap Seeds" so largely advertised, we offer these **POPULAR COLLECTIONS**, at twenty-five cents each, which give as much for the money as can be obtained anywhere, while the quality is the **BEST**.

It is only by growing these varieties in large areas, and by sacrificing all profit for the sake of **introducing BURPEE'S SEEDS** to thousands of new customers, that we can afford to make these **unequaled offers**. The packets are each of full size, and the quality the same as if purchased at regular retail prices. We cannot allow any changes to be made, as these Collections of "**SEEDS for the MILLION**" are packed in advance,—thereby giving work to many employees for some months before the busy season begins.

To show not only that **BURPEE'S SEEDS are the Best that Grow**, but also that the vegetables of our own introduction are **unequaled**, we prepared this special Collection for 1898.

Seven Superb VEGETABLES of our own introduction.

Six of these Collections, or any other twenty-five-cent Collection, will be mailed for one dollar net, in accordance with our offer, by which the purchaser is entitled to select *twenty-five cents' worth* extra for each one dollar's worth of seeds in *packets or ounces*.

For 25 Cts. we will mail to any address in the United States one regular-size packet each of the long-keeping **NEW AUSTRALIAN BROWN ONION**,—the delicious **NEW GOLDEN EAGLE MELON**,—the quick-growing **NEW RUBY PEARL RADISH**,—the true dark **STINSON BEET**,—the famous **BURPEE'S ALLHEAD EARLY CABBAGE**,—the hard-heading **ICEBERG LETTUCE**,—and the **MATCHLESS TOMATO**.

All seven packets will be mailed for twenty-five cents, with illustration and directions for culture printed upon each packet.

Burpee's GEM Collection of FLOWERS.

For 25 Cts. we mail one full-size packet each of embracing the **Little Gem Sweet Alyssum**,—**Fordhook Favorite Asters**,—**New Double Centaurea**,—**New Mammoth Fancy Cosmos**,—**Reselected Dianthus Chinensis**,—**Fordhook Finest Mignonettes**,—**Nicotiana affinis**,—**Starred and Striped Phlox Drummondii**,—**Poppies (Fordhook Fairies)**,—and the **Mammoth Fordhook Famous Verbenas**.

Never before has Burpee's GEM Collection contained such a fine assortment. Purchased separately at our regular retail prices **these ten packets would cost one dollar**, but the collection is sold for **twenty-five cents**, postpaid.

Seven Superb Sweet Peas.

For 25 Cts. we will mail one packet each of *Burpee's Brilliant*,—*Coquette*,—*Burpee's New Countess*,—*Prima Donna*,—*Queen Victoria*,—and *Shahzada*; also a large packet of the most beautiful *New American Seedlings*. It would have cost more than two dollars to have purchased these new varieties last year, while even at our **Special low prices for 1898**, purchased separately, these seven packets would now cost fifty cents.

Collection of Nasturtiums.

For 25 Cts. This Collection gives more than two ounces of the seed. It contains one package each of the gorgeous **New Tom Thumb Mixture**, the new climbing **Hybrids of Madame Gunter**; *one-half ounce of Mixed Tom Thumb*, *one ounce Tall Nasturtiums*, *Mixed*, and *one-half ounce of the superb Fordhook Favorite Climbing Nasturtiums*,—all of which, if purchased separately, would cost fifty-five cents. **With each Collection** we enclose a circular giving directions for culture.

Five Pansies for 25 Cts.

For 25 Cts. we will mail one regular packet each of *Emperor Frederick*,—*Meteor*,—*Peacock*,—*Spectabilis*,—and *Burpee's Giant Defiance, Mixed*. If purchased outside of this Collection, these five packets would cost fifty-five cents. Those who know the value of choice Pansy seed, will fully appreciate the liberality of this offer, when we state that it gives more than four hundred seeds for twenty-five cents. **In the envelope** containing each collection we enclose our printed directions, "*How to Grow the Largest and Finest Pansies.*"

We supply dealers these Collections at **fifteen cents each**, or **\$13.50 per 100**. Country storekeepers will find this an attractive and profitable way of handling seeds.

**IN OUR REGULAR STANDARD PACKETS
ARE SUPPLIED TO DEALERS AT
ONE-HALF RETAIL PRICES**

and in orders of 500 papers or more at 60 PER CENT. discount from retail prices.  **SPECIAL PRICES WILL BE GIVEN ON LARGE ORDERS FOR SEEDS IN PAPERS.** 

Our Garden Seeds are put up in a very neat and attractive style. **FULL AND COMPLETE DIRECTIONS FOR CULTURE**, together with an illustration and description, **PRINTED ON EACH PACKET** of nearly all the leading varieties. We have been at considerable expense to have correct illustrations and photographs taken for this purpose, and feel sure that our customers will appreciate it when they receive the seeds.

 **FLOWER SEEDS IN PAPERS** supplied at one-half retail prices, and in lots of 500 papers at 60 per cent. discount.  For description and Retail Prices, see Burpee's Farm Annual for 1898, a copy of which may be had upon application.

THE STYLE OF PAPERING OUR FLOWER SEEDS.

At an expense of some hundreds of dollars we have had illustrations made of nearly every variety of Flowers, and have prepared electrotypes giving also directions for culture. Thus, with few exceptions, every Packet of Flower Seeds sold by us bears an illustration of the variety and concise directions for culture. We are sure our customers will appreciate the labor involved in this work when they receive the seed in the neat, new style which, to our taste, is vastly preferable to the gaudy chromo packets so generally used.

Burpee's PINK Cupid.

See pages 32 to 34.

WHOLESALE AGENTS IN EUROPE.

In order to accommodate the Seed Trade in Europe we have appointed the following well-known firms **Special Wholesale AGENTS**. These houses will supply **Burpee's PINK Cupid**, in original packets, on the same terms as if the orders were sent direct to us, and will also furnish electrotypes for catalogue use.

Sole Wholesale Agents for Great Britain, Australian Colonies, and India:

Messrs. HURST & SON, 152, Houndsditch, London.

Sole Wholesale Agents for France, Belgium, Spain, Portugal, and Italy:

Messrs. VILMORIN-ANDRIEUX & CO., Paris, France.

*** Wholesale Agents for Germany, Holland, Austria, Russia, Denmark, Norway, and Sweden:**

Messrs. DIPPE BROS., HAAGE & SCHMIDT, HENRI METTE, MARTIN GRASHOFF, FREDK. ROEMER, DAVID SACHS, and J. C. SCHMIDT.

All orders from America (and Foreign Countries not named above) should be addressed to the introducers:

W. ATLEE BURPEE & CO., Philadelphia, Pa.

* In the case of the seven wholesale agents named for Germany, Holland, Austria, Russia, and Scandinavia, it is expected that seedsmen of these countries will procure their supplies of **Burpee's PINK Cupid** from the house with whom they are accustomed to deal.

Bed of Sweet Pea,—BURPEE'S PINK CUPID, in Jefferson Co., N. Y.

✂ The above illustration was engraved from a photograph by THE FLORISTS' EXCHANGE, and appeared also in AMERICAN GARDENING of September 18, 1897, after a visit of the editor to one of our beds of **BURPEE'S PINK CUPID**.
 ✂ See editorials on **page 31**.
